Pudsey Marble

## WELCOME TO PUDSEY MARBLE

At Pudsey Marble we are consistently endeavouring to be the UK's most innovative and comprehensive fireplace manufacturer. We are a family run business with over 25 years in the fireplace industry and we like to think of both our staff and our customers are an extension of the Pudsey marble family.

Our primary aims at PM are to provide our retail partners with unrivalled service and reliability, competitive pricing and the largest range of bespoke fireplaces of any UK manufacturer.

With a choice of 25 materials to work from and in excess of 100 fireplace designs across our ranges, so you can sure that whatever your customers tastes, needs or requirements PM should be able to fulfil them.

## THE CLASSICAL COLLECTION

As many of our customers already know, Pudsey Marble continually aim to be different. We love nothing more than the challenge of designing and crafting completely unique fireplaces.

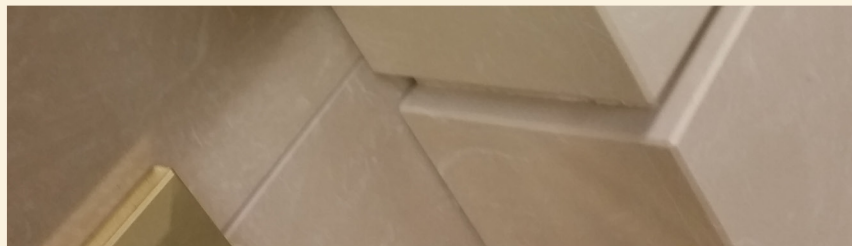

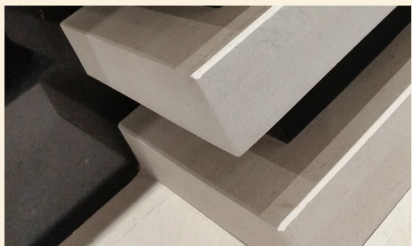

This is why in 2015 we proudly launched our Inspiration Collection brochure, an exciting new range of bespoke, contemporary stone fireplaces, designed to suit the most advanced gas and electric fires to date.

However ultra-modern and contemporary designs are only part of the Pudsey Marble story. As our name suggest we also produce a large number of marble fireplace designs, in fact we have over 25 years' experience in the manufacturing and design of both natural and micro-grain fireplaces.

Over this time we have formed a substantial back catalogue of fireplace designs. From this we have hand picked a selection of surrounds that we believe to be the perfect combination of both traditional and modern day classics.

## TRULY BESPOKE SERVICE

At Pudsey Marble we understand that each of your customer's tastes and requirements are different and that each installation comes with its own set of challenges, which is why the majority of fireplaces leaving our factory are bespoke made to the specific requirements of each order.

All of our fireplaces can be altered or adapted to suit most types of fire and we do not penalise for small alterations in size or changes to rebates.

Generally the overall size of a design is often dictated by the size of the fire you choose to feature.

## IMPORTANT INFORMATION

Please be aware that the images of our fireplaces throughout this brochure are 3D digital representations of the surrounds we manufacture, they are as true to life as can be attained but are not real life photographs.

The fires and stoves pictured within our fireplaces are also digital representations. They are not associated to any

individual manufacturer and their purpose is to illustrate the various types and sizes of fires available throughout our industry.

Samples of the materials used throughout this brochure can be obtained by contacting our office or your area sales representative.

All images used throughout the brochure remain property of Pudsey Marble and under no circumstance should be reprinted or reproduced without first obtaining expressed consent from Pudsey Marble.
